October 1, 2025

Dear Valued Patient:

After over 45 fulfilling years of practice and having the privilege of caring for your eye health, I have decided to retire. I plan to work hard and see a full schedule of patients through my last day of December 30, 2025. This decision comes with a heart full of gratitude and a deep sense of fulfillment.

I want to express my sincerest thanks to each and every one of you for entrusting me with your eye care needs over these years. It has been an honor to be a part of your lives, and I am profoundly grateful for the trust you placed in me. Your smiles, stories, and shared moments have enriched my life in ways that I cannot adequately express. I hope I have been able to help you with your eye care needs with the focus and compassion that you deserve.

While I will miss our interactions dearly, I take comfort in knowing that you will continue to receive exceptional care from the talented and dedicated doctors of Houston Eye Associates, the same doctors who have cared for me and my family. **Please reach out to my staff at (713) 668-6828 ext. 2328 for any questions and to discuss your future care.**

Your medical records will be maintained by Houston Eye Associates. They will be kept confidential and available to the Houston Eye Physicians. If you choose to transfer to another Physician that is outside of Houston Eye Associates, please visit www.HoustonEye.com and click on the Medical Records Release button at the top of the page to complete a request. This will be done at no cost to you. If you have any questions, please contact the Medical Records Department at (713) 668-6828 ext. 2348.

As I reflect on my career, I am filled with immense pride in the relationships we've built and the positive impact we've made together. While I am excited to spend more time with my family (especially my grandkids), I will miss seeing my patients immensely.

In closing, I extend my heartfelt thanks once again for the privilege of being your ophthalmologist. It has been an honor and a joy to serve you.

With warm regards and deepest gratitude,

Jeff Arnoult, M.D.
